Infocus Technologies Pvt Ltd., started its journey in 2007 as a Business Consulting, Information Technology and Service Company. We are primarily focused on SAP & AWS Consulting, Implementation and Support services.

The company was promoted by a group of senior IT and Management professionals, with years of rich experience, to create a venture embodying a set of core values, which are fundamental to our existence:

- ✓ **Teamwork**
- ✓ **Employee Empowerment**
- ✓ **Integrity without Compromise**

Infocus aspires to deliver outstanding services and solutions in its areas of expertise to Corporate Houses, Small & Medium Enterprises (SME) and the Government Sector. The company offers a range of specialized services and solutions for Information Technology (IT), Business Consulting pertaining to SAP & AWS Practice. Infocus has deep domain expertise in Iron/Steel & Primary Metals, Manufacturing, Maintenance, Supply Chain, Financial Services, IT Infrastructure Services, e-Governance applications, cloud hosting.

At a competency level, Infocus is strongly positioned in the SAP & AWS Practice with its services for support, maintenance and enhancement of SAP Systems. Infocus is the one-stop service provider for your end to end SAP/ERP solution.

Our Strengths:

- **Value Proposition:** Infocus believe, follow and abide by core values of conduct which strengthens our approach and presence amongst our competitors and ensure enhanced quality services to our esteemed clients.
- **Our Brand:** We are committed to build a better, stronger and more durable company for future generations.,
- **Involvement Levels:** We believe on a partnership approach with senior management getting involved at a fairly early phase of any customer engagement. Executive attention and commitment shown to customers guarantees zero latency in decision-making and hence faster results.

Strategic Business: Consulting Practice
